Cominar Reconfirms that its Distribution Is Maintained

Québec, May 11, 2017 – Cominar Real Estate Investment Trust (“Cominar” or the “REIT”) (TSX: CUF.UN) announced today its results for the first quarter of fiscal 2017.

Highlights for the Quarter Ended March 31, 2017

- Cominar completed its capital optimization program
- Decreased debt ratio to 52.0%

“During the quarter ended March 31, 2017, we completed our capital optimization program by selling \$93 million of properties. This amount was used to reduce our debt ratio to 52.0%”, said Gilles Hamel, Executive Vice President and Chief Financial Officer of Cominar.

“Our in-place occupancy rate has been impacted over the last 24 months in the retail segment by the bankruptcy of several retailers, including Target, and in the office segment by the federal government’s policy of consolidating and reducing their space requirements in the Ottawa area”, stated Michel Dallaire, Chief Executive Officer. *“During this period, our leasing teams have done excellent work in re-leasing the space left vacant. As a result of these efforts, 1.7 million square feet of vacant space has been leased, but the clients are not yet in occupancy, paying rent. The incremental rent that we will receive in the coming quarters from these clients allows us to confirm the sustainability of our distribution at current levels”,* added Mr. Dallaire.
