Overall, results show solid growth and a healthy financial position for the first quarter ended March 31”, stated M. Michel Dallaire, President and Chief Executive Officer of Cominar. “In general, we are quite satisfied with our results, as they compare well with those obtained in the first quarter of 2012”.

“While remaining focused on cost control, operational synergies and high-quality customer service, we carry on with our acquisitions, which will continue to contribute to our distributable income in the coming quarters”, concluded Mr. Dallaire.

PRESENTATION OF FINANCIAL RESULTS

For the quarter ended March, 31, 2013, **Cominar’s operating income** totalled \$169.6 million, up 34.3% over the corresponding period in 2012, when they totalled \$126.3 million. This increase is mainly due to the contribution of the acquisitions made in 2012 and 2013.

Net operating income reached \$89.9 million, up 34.5%, compared to \$66.9 million in the first quarter of 2012.

Net income grew to \$59.7 million, an increase of 82.4% over last year’s first-quarter result, which was \$32.7 million.

Recurring net distributable income per unit (fully diluted) was \$0.38 at the end of the first quarter of 2013, which is the same as last year’s first-quarter result. This demonstrates, namely, that the synergies

generated by our acquisitions have allowed us to reduce our debt ratio from 54.4% to 51.2%, without affecting our per-unit results.

Recurring funds from operations for the first quarter of 2013 reached \$55.1 million, up 29.6% over the corresponding quarter in 2012, when they totalled \$42.5 million. **Recurring funds from operations per unit (fully diluted)** stood at \$0.43, compared to \$0.45 as at March 31, 2012, representing a decrease of 4.4%.

Recurring adjusted funds from operations per unit (fully diluted) stood at \$0.38, the same as in the first quarter of 2012.

In the first quarter of 2013, Cominar's **distributions** to unitholders totalled \$45.2 million, compared to \$35.6 million in the corresponding quarter in 2012, representing an increase of 26.7%. The monthly distribution per unit remained stable at \$0.12.

FINANCIAL HIGHLIGHTS

As at March 31, 2013, **Cominar's debt ratio** stood at 51.2%, whereas its **annualized interest coverage ratio** remained conservative at 2.85: 1, and the **weighted average interest rate of long-term debt** stood at 4.87%, compared to 5.15% as at March 31, 2012.
