For Immediate Release

Cominar REIT – 2010 was a year of growth, expansion and geographic diversification

TSX - CUF.UN

Québec City, March 10, 2011 — Cominar Real Estate Investment Trust (“Cominar” or the “REIT”) announces its financial results for the fourth quarter and fiscal year ended December 31, 2010.

Financial Highlights

- **Increase of 26.4% in net income**
- **Increase of 17.4% in distributions paid**
- **Increase of 11.1% in funds from operations**
- **Geographic diversification in the Atlantic Provinces**
- **Acquisitions for \$135 million**

“We achieved good growth in 2010 in the context of an economic recovery that enabled us to accelerate our lease renewals and to improve leasing rates in the industrial and mixed-use segment in the Montréal region, which was further affected by the uncertain climate in 2009. We continued to benefit from the sustained economic robustness of the Greater Québec City Area, where Cominar retains a dominant position. We remained on the lookout for high-potential acquisition opportunities and acquired 33 quality properties in a market where opportunities were rather scarce in 2010. Among these, we purchased the 16 Overland properties in the Atlantic Provinces, giving us access to a fourth geographic market, followed by the acquisition of 10 other income-producing properties in this market. We are proud of the confidence witnessed by the investor community as we raised \$204 million in financing in 2010. We foresee pursuing our growth and expansion through quality acquisitions and developments in 2011,” indicated Michel Dallaire, President and Chief Executive Officer of Cominar.

For the fiscal year ended December 31, 2010, **operating revenues** totalled \$283.9 million, up 8.3%. This increase is due mainly to the contribution of the acquisitions completed and integrated during fiscal 2009 and 2010.

Net operating income grew to \$166.5 million, up 7.5% over fiscal 2009, whereas the operating profit margin as a percentage of operating revenues stood at 58.7%.

Net income rose to \$36.7 million, up 26.4% over the previous year. **Recurring distributable income per fully diluted unit** amounted to \$1.47.

Funds from operations totalled \$104.4 million, an increase of 11.1% reflecting the contribution of the acquisitions and developments completed in 2009 and 2010. **Recurring funds from operations** per fully diluted unit amounted to \$1.66.

Adjusted funds from operations totalled \$88.8 million, up from \$78.9 million in 2009. **Recurring adjusted funds from operations** per fully diluted unit amounted to \$1.46.

In 2010, Cominar paid **distributions** of \$87.0 million to unitholders, compared with \$74.2 million in 2009, an increase of 17.4%. **Distributions per unit** were maintained at \$1.44.

Financial Position

At the beginning of the year, Cominar proceeded with an offering of convertible debentures for \$86.3 million, followed by a unit issue for approximately \$3 million in connection with an equity offering agreement by way of at-the-market distributions. In April, an offering of six million units was closed on a bought deal base for proceeds of \$115 million, which were used to pay down debt. As at December 31, 2010, Cominar maintained a **debt ratio** of 56.9%. The interest coverage ratio remained conservative at 2.85 and the weighted average interest rate of its long-term debt stood at 5.54%, compared with 5.50% as at December 31, 2009.

Fourth-Quarter Results

For the quarter ended December 31, 2010, **operating revenues** amounted to \$71.8 million, compared with \$63.7 million for the same period of 2009, an increase of 12.7% reflecting the contribution of acquisitions and developments. **Net operating income** grew by 11.1% to \$43.8 million. **Distributable income** rose to \$23.5 million, up from \$21.2 million for the corresponding period of 2009, an increase of 10.8%. **Distributable income per fully diluted unit** amounted to \$0.37 for the fourth quarter of 2010, a decrease of 2.6%. **Adjusted funds from operations** were up by 12.1% over the fourth quarter of 2009. AFFO per fully diluted unit remained stable at \$0.37.

Operational Highlights

Cominar consistently strives to maximize its property occupancy rates, which have little fluctuated since its inception. As at December 31, 2010, the occupancy rate stood at 93.8%, compared with 93.5% as at December 31, 2009, a most appreciable rate in the context of a relatively slow economic recovery. Cominar intensified its leasing activities in the industrial and mixed-use segment in the Montréal area where occupancy rates turned around.

Acquisitions and Developments

In 2010, Cominar acquired 33 income-producing properties representing a \$135 million total investment and a leasable area of approximately 1.5 million square feet, specifically the 26 properties acquired in the Atlantic Provinces in its three business segments, along with four industrial and mixed-use properties in the Montréal region and one in Québec City as well as two office buildings in the Greater Montréal Area. The construction of Phase I of Complexe Jules-Dallaire is completed and the office space clients continue to gradually move in.

Dividend Reinvestment Plan

Cominar has a dividend reinvestment plan for its unitholders that allows participants to reinvest their monthly distributions in additional Trust units. Participants receive an effective discount of 5% of distributions in the form of additional units. Information and enrolment forms are available at www.cominar.com.

Non-GAAP Measures

Net operating income, (NOI), distributable income (DI), funds from operations (FFO) and adjusted funds from operations (AFFO) are not measures recognized under Canadian generally accepted accounting principles (GAAP) and do not have standardized meanings prescribed by GAAP. NOI, DI, FFO and AFFO computed by Cominar may differ from similar computations as reported by other similar organizations and, accordingly, may not be comparable to similar measures reported by such organizations.

The following table shows the reconciliation of DI, FFO and AFFO with the most similar GAAP measures:
